

PLAN

Identify potential risks and how to prevent and reduce them

Plan for safety:

- Identify hazards
- Determine measures to remove or reduce hazards
- Train personnel
- Prepare plans and procedures according to the PHAI Emergency Plan

TRAIN

Use experience and lessons-learned to reduce risks and prevent emergencies

Improve every day:

- Use protective equipment and clothing
- Provide barriers and fences
- Keep emergency response equipment on hand (e.g. spill kits, fire extinguishers)
- Verify preparedness through oversight
- Test and refine emergency procedures

RESPOND

Respond according to defined and approved plans

Execute a proper response:

- Implement approved and rehearsed plans
- Respond with trained personnel
- Coordinate municipal emergency services
- Communicate with stakeholders
